## BUSINESS OVERVIEW

European Performance Automotive Group is an Independent Automotive Maintenance and Performance Powerhouse specialising in care, scheduled maintenance, service and repair of the finest sports and luxury automobiles.

We specialise in brands like Mercedes Benz, BMW, Porsche, Land Rover, Range Rover, Jaguar, Audi, Volvo and other exotic cars like Rolls Royce, Maserati, GTR, R8, Lexus, Lamborghini etc. We limit our services to selected premium vehicles to ensure that we have the latest equipment and knowledge to service the car as we understand that your car is a major investment for you, which is why we care for each customer's vehicle as if it were our own.

## THE EPAG ADVANTAGE

- Greater confidence – EPA is a recognised symbol of quality, safety and trust.
- Increased satisfaction – The service provided exceeds customer expectations.
- Affordable Prices – Get the same quality service delivered at an affordable price.
- OE Genuine Spares – Access to genuine OE/Performance Spares.
- Professional Workmanship – Process Oriented Executive Team.

## TEAM

We are an expert team of professionals who believe in the strength of vision and competencies coming together to achieve something great.

Our professionally trained technicians consume over 250 hours of ongoing training content each year. In addition, our mechanics continue to grow their passion for luxury vehicles and are routinely faced with meeting high customer expectations. The experts at European Performance Automotive are equipped to handle major and minor repairs, as well as factory dictated maintenance.

## FEATURED SERVICES

### LUXURY CAR MAINTENANCE & FLEET MAINTENANCE

- Preventive Maintenance & Service
- Batteries & Oil Change
- Brakes, Brake Pads and Rotors
- Clutch & Drive-Train Repair
- Complete Exhaust Service
- Computerized Engine Diagnosis
- Cooling Systems
- Engine Tune-Up
- Glass Repair
- Pre-Purchase Vehicle Inspection
- Shocks & Struts
- Suspension Repair
- Wheel Alignment
- Air Conditioning Service

As a car owner, preventive maintenance is the single most important thing you can do. Regular maintenance is like regular doctor check-ups. They keep your car healthy and give car experts a chance to catch small problems before they become big ones. Auto care preventative maintenance includes regular services, inspections and repairs that prevent potential problems, such as lubrication, adjustments, cleaning, testing, and replacement of worn parts.

## PERFORMANCE TUNING AND PERFORMANCE UPGRADES

- Performance Struts
- Sway bar Installation
- Suspension Upgrades
- Performance ECUs
- Performance Air Filter
- Cold-Air intake system
- Performance Headers
- Cat-Back exhaust systems
- Electronic Ignition kit
- Performance Tires
- Weight Reduction Kit
- 9 point Roll Cage installation
- Racing seats
- Nitrous Oxide System Installation
- Carbon Ceramic Brake Pads
- Carbon Vented Disk rotors
- High Lift Camshaft
- Turbo/Super Charger Installation

## INCREASING POWER OUTPUT, HANDLING AND SPEED

EPA helps in calibrating and adjusting the car for the desired purpose. Examples of which mean that you replace the air filter against one with less resistance, accompanied by a muffler with less resistance. Then you can calibrate the carburettor or fuel injection to deliver more fuel, which - in addition to the surplus of air - delivers more power. The possibilities of engine tuning virtually are endless.

# AESTHETICS, DENT-PAINT, PREMIUM AUTO DETAILING STUDIO

- Premium Shampoo Wash
- Wash Coating & Nano-Coating
- Anti - Bacterial Interior Cleaning
- Paint Correction
- Exterior Rubbing
- Exterior Polishing
- Polymer Coating ( Matte/Gloss )
- 9H Ceramic Coating ( Matte/Gloss )
- Headlight restoration and Coatings
- Glass Coating
- Wheels Coating
- Wax Coating

**KEEP YOUR LUXURY CAR LOOKING BRAND NEW**

## EXTERIOR DETAILING

Involves cleaning, restoring or exceeding the original condition of the surface of the car's finish, chrome trim, windows, wheels, and tires as well as other visible components on a vehicle's exterior. A wide array of detailing products and techniques are used based on the vehicle's surface type and condition. Application includes detergents and acid-free degreasers, detailing clay, waxes, shines, and polishes to improve reflectivity or to give the tires a shine and making it look as a brand new car.

## INTERIOR DETAILING

Involves a deep cleaning of the whole interior cabin. Reconditioning a variety of materials such as synthetic carpet upholstery, vinyl, leather, various natural fibres, carbon fibre composites, plastics. Vacuuming is standard while upholstery stains may be removed during detailing by liquid and foam chemicals. Additionally, some nonporous surfaces may be polished to extend a WOW experience.
